ABSTRACT

An assessment of vocational education service to the population in principal United States cities, this report was based on data received from U.S. cities having a population of over 250,000. Analyzed in regard to enrollment, teachers, expenditures, and program completions and placements, information from 45 of the 58 biggest cities is included. (SN)

MEMORANDUM

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE
OFFICE OF EDUCATION

ED 072211

TO : State Directors of Vocational Education
Regional Directors, AVTE
Headquarters Staff

FROM : Acting Director
Division of Vocational and Technical Education

SUBJECT: "Vocational Education in Major Cities"

DATE: DEC 20 1972

Enclosed for your information is a copy of "Vocational Education in Major Cities." This report makes a brief analysis of major city vocational education data as related to the total State population and vocational education enrollment, teachers, and expenditures. Annual vocational education reports are requested for all cities with population over 250,000.

An additional copy is enclosed for each major city reported in your State. Please distribute to the appropriate local official.

For further information you may wish to contact Mr. Harold F. Duis, Program Specialist, Reports and Data (State Plans), Program Support Branch. His telephone number is: (202) 963-3291.

INTRODUCTION

The information presented in this report is taken from annual vocational education reports submitted by the States and includes data from the major cities. Population data are taken from the 1970 Census Report.

The purpose of the material is to give some indication as to the States' population served by vocational education in the major cities and the expenditures that were made for vocational education. The total vocational enrollment for the State and city is reported with a breakdown by level of education and the number of enrollees who are disadvantaged and handicapped. The expenditures for vocational education are reported by Federal and State/Local sources, by the total amount of expenditures allocated to each level of education, and by the total amount allocated to the disadvantaged and the handicapped. For States having more than one major city, a total is compiled with a percentage for the total indicated. Information on 45 major cities is included. Reports were not received for 12 of the 58 biggest cities, excluding the District of Columbia, as identified by the Census, in California and New York and the cities of Baltimore and Nashville.

SUMMARY

1. Total Major City Data Related to U.S. Total Data

The following shows the relative amount of vocational education effort in the major cities expressed as a percentage of the U.S. total:

	<u>Percent in 42 Cities</u>	<u>Percent in 45 Cities *</u>
Population	12.3	12.7
Total Enrollment	14.3	15.9
Enrollment-Disadvantaged	18.0	19.7
Enrollment-Handicapped	8.2	9.0
Enrollment-Secondary	16.1	17.3
Enrollment-Postsecondary	9.7	12.2
Enrollment-Adult	13.6	16.2
Enrollment-Cooperative B	8.9	13.8
Enrollment-Cooperative G	6.5	11.4
Total Expenditures	9.8	
Expenditures-Federal	8.0	
Expenditures-State/Local	10.1	
Expenditures-Disadvantaged	11.0	
Expenditures-Handicapped	12.0	

* Jacksonville, Miami, and Tampa included.

2. Major City Proportion of State's Selected Items

The 42 major cities reported, excluding Jacksonville, Miami, and Tampa, show a wide range in percentages of their respective States for selected items as follows:

	<u>Low</u>	<u>High</u>
Population	2.2 percent	42.2 percent
Vocational Enrollment	1.7 percent	35.6 percent
Total Expenditures	0.8 percent	71.7 percent
Federal Expenditures	0.1 percent	64.6 percent
State/Local Expenditures	0.7 percent	73.8 percent
Number of Teachers	1.5 percent	69.7 percent

3. Major City Vocational Education Enrollment vs. Population

A comparison of vocational education enrollment with population reveals that the percentages of enrollment in 24 major cities fall behind the percentages of population, but in some of the other cities (Phoenix, Honolulu, and Chicago) the enrollment percentages exceed the population to the extent that for all cities the enrollment exceeds the population by 2.0 percent.

4. Major City Total Expenditures vs. Enrollment

A comparison of total expenditures with enrollment reveals that 32 cities expend a lesser percentage of the State's total funds than their percentage of enrollment. The total expenditures of all cities lag enrollment by 4.5 percentage points. Sixteen cities receive a greater percentage of Federal funds than their percentage of the total expenditures and in 24 cities the State and local expenditures exceed the proportion of total expenditures.

5. Teachers vs. Enrollment

A comparison of the number of teachers with enrollment reveals that 19 cities have a larger percentage of the State's total teachers than their percentage of vocational enrollment.

6. Major Cities Lag in Enrollment of Handicapped But Excel in Disadvantaged Enrollment

A comparison of enrollment by target group with total enrollment reveals that 23 cities have a higher percentage of disadvantaged than their percentage of the State's total enrollment and 12 cities exceed in percentage of handicapped over the State's total enrollment. Generally expenditures lag behind enrollment for the target groups. Expenditures exceed enrollment in 14 cities for the disadvantaged and in 16 cities for the handicapped.
